Aditya Anant

Noida, Uttar Pradesh, India | adityaanant42@gmail.com | +91 6394068419 | LinkedIn

Professional Summary

B.Tech Computer Science Engineering (AI ML) student with training in Java Full Stack Development and Software Testing. Skilled in Java, Spring Boot, SQL, React.js, Selenium WebDriver, TestNG, REST APIs, and MySQL. Seeking entry-level Software Development or QA Automation opportunities.

Technical Skills

Programming Languages: Java, Python, SQL
Core Java: OOP, Collections Framework, Exception Handling, Multithreading, Java 8 Features
Frontend: HTML5, CSS3, JavaScript, React.js
Backend: Spring Boot, JDBC, Hibernate/JPA, REST APIs
Testing: Manual Testing, Selenium WebDriver, TestNG, Functional Testing, Regression Testing, Smoke Testing
Tools: Git, GitHub, Maven
Methodologies: SDLC, STLC, Agile, Defect Life Cycle

Experience

Java Full Stack Development & Software Testing Trainee – QSpiders Mar 2026 – Present

- Developed Java-based applications using Core Java, Spring Boot, Hibernate/JPA, JDBC, REST APIs, and MySQL.
- Automated web application test scenarios using Selenium WebDriver and TestNG.
- Performed manual testing including functional, smoke, and regression testing.
- Practiced test case design, defect life cycle, SDLC, STLC, and Agile methodologies.
- Used Git, GitHub, and Maven during project-based development and testing activities.

Projects

Student Management System – Full Stack Web Application 2026
Live Demo
Technologies: Java, Spring Boot, Hibernate, MySQL, REST APIs

- Developed a web-based Student Management System for managing student records.
- Implemented CRUD operations using Spring Boot and Hibernate.
- Integrated MySQL database for efficient storage and retrieval of information.
- Developed RESTful APIs for communication between application layers.

Forest Fire Detection & Prevention Using Machine Learning 2025-26
Technologies: Python, Machine Learning, Scikit-Learn, Pandas, NumPy

- Developed a machine learning model to predict forest fire risks using environmental and weather-related data.
- Performed data preprocessing, feature engineering, and model evaluation.
- Compared Random Forest, Decision Tree, SVM, and Neural Network models to improve prediction accuracy.
- Enhanced early fire detection capabilities for preventive decision-making.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering (AI & ML)
Noida International University, Greater Noida 2022–2026

Class XII (Senior Secondary) – First Division
IRS, Gorakhpur 2021

Class X (Secondary) – First Division
RPM Academy, Gorakhpur 2019

Certifications & Achievements

- Introduction to Machine Learning: Art of the Possible (2026) [Certificate]
- AI Fluency: Framework & Foundations — Anthropic [Certificate]
- Java Full Stack Development Training and Software Testing Training – QSpiders
- JEE Mains Qualified – Qualified Joint Entrance Examination Mains
